APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water granted herein at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.013 cubic feet per second or sufficient to water 400 head of cattle.

Work must be prosecuted with reasonable diligence and be completed on or before December 21, 1990

Proof of completion of work shall be filed on or before January 21, 1991

Application of water to beneficial use shall be made on or before December 21, 1992

Proof of the application of water to beneficial use shall be filed on or before January 21, 1993

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed FEB 13 1991

Proof of beneficial use filed FEB 02 1993
